Add-on Elements

The following add-on Elements are *available to purchase* for the indicated levels. Enquire today!

Productivity Elements	Le	Ed	Dc	Ds
Offsets Advanced — Embolden logos, badges and other designs with distinctive, colourful automatic borders			£	✓
Team Names Advanced — Personalise team and corporate logos with names, quickly and efficiently			£	£
Kiosk — Easily and quickly personalise consumer garments and merchandise, without the need to train staff to use complex digitising systems	£	£	✓	✓

Creativity Elements	Le	Ed	Dc	Ds
ENHANCED **Reef Photo Stitch** — Convert incredibly complex images to a single-colour run stitch that never crosses itself. It creates an interesting coral reef-like stitch pattern that concentrates in darker areas of the image for an artistic style.			£	✓
Maze Fill — Fill shapes with perfect, evenly spaced lines that never overlap in just a few clicks, saving many hours of digitising work				£
Hand Stitch Effect — Create an organic hand-feel stitch effect, with randomised stitch spacing, angles and lengths. Apply it to any stitch type, including Satin, Tatami, Run, Backstitch and others.			£	✓
Custom Splits — Add carving, embossing and other dimensional effects to your embroidery				£
ENHANCED **Photo Flash / Colour PhotoStitch** — Convert black and white, greyscale and colour images into multi-colour artistic stitching			£	✓
Motifs — Create and re-use patterns for runs and fills				£
Motifs Advanced *(Requires Motifs Element - Standard)* — Take creativity to the next level with gradient and variable size motifs				£
String Stitch (Paghadi) — Visually stunning new stitch type for added creativity, and commonly used to sew down small mirror elements				£

Specialty Elements	Le	Ed	Dc	Ds
Beading — Create bead run or manual bead designs with your choice of bead shape, colour and size. Supports four stitching patterns (upright, flat, flat-left, flat-right).				£
Font Creator — Create your own custom embroidery fonts				£
Single Sequins — Create high impact embroidery files for single sequin machines			£	£
ENHANCED **Sequins Advanced** — The complete sequin embroidery solution for twin and quad-sequin machines. Now includes stipple fill sequins, sandwich sequins and flip sequins				£
Chenille (Aari) Stitch — Add chenille embroidery capabilities to a lockstitch embroidery digitising system				£
Schiffli — Create and prepare lacework and emblems precisely and efficiently				£
